

# Lightning Talk: FOSS konsequent nutzen

von Lars Roskoden

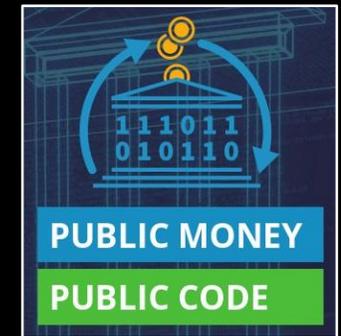

Was wir kennen:

- Linux statt Windows
- QGIS statt ArcGIS
- OSM statt GoogleMaps

→ „gelebte Demokratie“: Regeln, Ziele etc.

→ viel zu selten: „Public Money? Public Code!“ ([fsfe.org](https://fsfe.org))

→ viel zu oft: proprietäre Quasi-Standards

# Lightning Talk: FOSS konsequent nutzen

von Lars Roskoden

Auf was ich hinweisen möchte:

1. SearX statt Google Suche

# Lightning Talk: FOSS konsequent nutzen

von Lars Roskoden

Auf was ich hinweisen möchte:

1. SearX statt Google Suche
2. Das Fediverse
  - a) Mastodon statt Twitter
  - b) Pixelfed statt Instagram
  - c) PeerTube statt YouTube
  - d) diaspora statt Facebook
  - e) ...

Auf was ich hinweisen möchte:

3. Conversations statt WhatsApp

# Lightning Talk: FOSS konsequent nutzen

conversations.im

The screenshot shows the website for 'conversations.im'. At the top is a green navigation bar with links: Conversations, Features, Security, XMPP, Support, Development, Donate, Partners, and Account. The main content area has a white background with a large green speech bubble icon on the right. The headline reads 'The very last word in instant messaging'. Below this is a sub-headline: 'Conversations is a Jabber/XMPP client for Android 4.0+ smartphones that has been optimized to provide a unique mobile experience.' A green button says 'BUY NOW ON GOOGLE PLAY'. Below the main text are three columns of features, each with a circular image showing a chat interface snippet, a title, a short description, and a green button:

- Send Images**: Don't stop at text messages. Conversations allows you to easily share files with your contacts and embeds images directly into your chat. Even in conferences. Have something personal to say? Turn on end-to-end encryption for extra privacy. Button: SECURITY & PRIVACY.
- Read Markers**: Wondering if your contact has read your messages? Conversations will tell you. And if you don't want your contacts to know whether you have read a message yourself you can simply disable that feature in the settings. Button: MESSAGE CONFIRMATION.
- Dynamic history loading**: Conversations will automatically load the message history from your server when you need it. If you are using more than one device at the same time, both your sent and received messages will show up on all devices. Button: MESSAGE SYNCHRONIZATION.

At the bottom, there are three more circular images with titles: 'Conferences' (showing a group chat), 'Low impact on' (showing system status like 'Phone idle', 'Conversations', 'Wi-Fi'), and 'Open Source' (showing code snippets).

Auf was ich hinweisen möchte:

3. Conversations statt WhatsApp
4. LineageOS statt Android

# Lightning Talk: FOSS konsequent nutzen

lineageos.org

The screenshot shows the homepage of the LineageOS website. The header features the LineageOS logo and a navigation menu with links for BLOG, ENGINEERING, ABOUT, COMMUNITY, LEGAL, STATUS, and WIKI. The main content area has a teal background with the text 'LineageOS Android Distribution' and a description: 'A free and open-source operating system for various devices, based on the Android mobile platform.' Below this is a 'DOWNLOAD' button and a 'BLOG' link. To the right is an image of a smartphone displaying the LineageOS lock screen with a clock, weather, and date. The bottom section is titled 'Latest news' and features a news item: 'Changelog 23 - Brilliant Backgrounds, Versatile Volume and Terrific Tiles' with a sub-headline 'CHANGES SINCE MAR 01, 2019' and a byline 'July 02, 2019 @ jrizzoli'.

nextcloud.com

The image shows a screenshot of the Nextcloud website. The background is a solid blue color. At the top left is the Nextcloud logo. To its right are navigation links: Products, Support, Community, About, Get Nextcloud, Demo, GDPR, and icons for mail and chat. Below the navigation is a news banner that reads "NEWS Nextcloud Hub: The new standard in on-premises team collaboration". The main heading is "Regain control" in large white text, followed by the subtext "The self-hosted productivity platform that keeps you in control". A white button with the text "Get Nextcloud" and a right-pointing arrow is positioned below the subtext. On the right side, there are three overlapping device screens: a desktop browser window showing the Nextcloud file manager interface with a list of files and folders, a smartphone displaying a chat conversation, and a tablet displaying the same chat conversation.

Leon

Christine Today 10:18  
Hi!

Leon 10:18  
Hi Christine!

Christine 10:19  
Here's that file I promised to share with you during the meeting.

colors.jpeg

Let me know when you're done working on it.

Leon 10:20  
Ok, no problem. Probably next week.

6. Nextcloud statt Dropbox, Google Kalender, -Kontakte
7. matomo statt Google Analytics

# Lightning Talk: FOSS konsequent nutzen

matomo.org

The screenshot shows the Matomo website homepage. At the top, there is a navigation bar with the Matomo logo, menu items like 'Why Matomo?', 'Product', 'On-Premise', 'Pricing', 'Community', 'Resources', and a search icon, and a prominent green 'TRY IT FOR FREE' button. Below the navigation bar is an orange banner with the text 'Matomo Analytics for WordPress has launched! Download now'. The main content area features a large blue background with the headline 'Ethical Analytics, Powerful Insights' in white. Below the headline is a sub-headline: 'Take back control with Matomo – a powerful web analytics platform that gives you and your business 100% data ownership and user privacy protection.' Two buttons are visible: a green 'Try Matomo Cloud' button with a cloud icon and a white 'Matomo On-Premise' button with a server rack icon. Below the 'Try Matomo Cloud' button is the text 'No credit card required.' At the bottom of the main content area, there is a link that says '>> Compare hosting options'. The background of the main content area is a blurred screenshot of the Matomo analytics dashboard, showing various charts and data points.

# Lightning Talk: FOSS konsequent nutzen

Fazit:

Die Nutzung von Freier Open Source Software (FOSS) ist nicht nur im GIS-Bereich sondern auch in der digitalen Alltagswelt möglich. Einfach machen!
